ALL PURPOSE NEUTRALIZER

PROQUIP NZ LTD - 0800 686 284 - www.proquipnz.co.nz

338 EnviroStar Green™

shine on.

ALL PURPOSE NEUTRALIZER

Concentrated "green" neutralizing solution is effective on resilient tile and all types of stone flooring. Increases adhesion of coatings to floors where alkalinity is a problem.

Product Packaging¹

PROD CODE: 338MPE

SIZE: 4 litres

ORDER QTY: 4 per case

CARB
compliant

338_PDS 2/2012

The *most effective* way to
neutralize your floors.

Recommended Surfaces:

VCT and most hard floors with adhesion problems due to excessive alkalinity.

CAUTION: Use on some polished stone floors may result in etching and loss of gloss.

NOTE: Test on inconspicuous area first for any etching effect.

Directions for use: GENERAL NEUTRALIZATION

1. Strip floor.
2. Mix EnviroStar Green All Purpose Neutralizer in mop bucket or automatic scrubber according to the following dilution ratios:
Resilient tile: 1:64 2 US oz per gal water (16 ml per 1 liter water)
Hard Floors: 1:10 13 US oz per gal water (100 ml per 1 liter water)
3. Apply liberally to floor and allow to soak for 10 minutes. Pick up residue with automatic scrubber.
4. Using an automatic scrubber, rinse floor with clean, cold water. Pick up residue with automatic scrubber.
5. Mop floor with clean, cold water and allow to dry.

REMOVING SALT FILMS

Automatic Scrubber Application (Recommended):

1. Clean floors to remove soil residues.
2. Dilute EnviroStar Green AP Neutralizer in automatic scrubber at:
Light to Moderate Winter Salt Films
1:128 1 US oz per gallon of clean water (8 ml per 1 liter of clean water)
Heavy Winter Salt Films
1:64 2 US oz per gallon of clean water (16 ml per 1 liter of clean water)
3. Use an automatic scrubber with vacuum to pick-up solution and residues.
4. Allow floor to dry thoroughly before burnishing.

Mop-On Application (Optional):

1. Clean floors to remove soil residues.
2. Dilute EnviroStar Green All Purpose Neutralizer in mop bucket at:
Light to Moderate Winter Salt Films
1:128 1 US oz per gallon of clean water (8 ml per 1 liter of clean water)
Heavy Winter Salt Films
1:64 2 US oz per gallon of clean water (16 ml per 1 liter of clean water)
3. Damp mop floor thoroughly with EnviroStar Green All Purpose Neutralizer solution.
4. (Required) Damp mop floor second time with clean water.
