

LEATHER CARE

Cleaner, Conditioner & Protector

Page | of |

Product Data Sheet Product Code: LET Issued: February 1, 2012

What is Leather Care?

LEATHER CARE is a cleaner, conditioner and protector for fully-pigmented smooth leather surfaces, such as leather lounge suites, leather upholstery in motor cars, handbags, jackets, shoes and boots.

Key Benefits

- ✓ LEATHER CARE rejuvenates the leather leaving it soft and supple.
- ✓ LEATHER CARE contains beeswax and lanolin to moisturise the leather.
- ✓ LEATHER CARE increases the durability of the leather.
- LEATHERCARE provides resistance against stains, spots and spillages.

How Does It Work?

LEATHER CARE is formulated with mild, biodegradable detergents so it cleans gently but effectively. As it dries, LEATHER CARE leaves a wax-rich film that impregnates the leather to both improve the sheen and moisturise the leather.

For Use On...

LEATHER CARE is excellent when used on fully-pigmented, smooth leather surfaces, such as are found in leather upholstery, jackets, handbags, suitcases, shoes, boots and fashion accessories.

Caution

LEATHER CARE is <u>not</u> suitable for use on suede, nubuck, fabrics, aniline- or unfinished- leathers. Always follow the manufacturers' instructions for cleaning leather items.

Technical Data

Properties

COLOUR – Milky white liquid ODOUR – Faint spicy perfume pH = 8.5 – 9.5

Coverage: 100 – 200 sq metres per litre

Environmental Care

LEATHER CARE conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there

is no waste or damage. LEATHER CARE is water based, non-flammable and based on biodegradable surfactants. It is phosphate-free. LEATHER CARE containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

Helpful Hints

- ➤ Do not place your leather furniture too near a radiator or fireplace. There should be a minimum distance of 30cm between your furniture and a heat source.
- Avoid exposing your leather furniture to direct sunlight.
- ➤ Protect the leather from dust and dirt. Vacuum clean it regularly and clean with LEATHER CARE.
- ➤ In the event of an accident, consult your furniture dealer for advice or the recommendations of a specialist. Never use solvents or aggressive chemicals, as these can strip the surface treatment and colours from the leather.

Application

- ➤ Vacuum the leather to remove dust. Absorb any spillages with a sponge or paper towel.
- > Shake the bottle before use.
- ➤ Test LEATHER CARE on a small, inconspicuous area first to ensure it is compatible and non-injurious to the colour. If the leather turns dark or the colour migrates onto your cloth, do not use this cleaner.
- ➤ If the test is OK, spray LEATHER CARE onto a clean cloth and wipe it evenly across the leather surface. Apply a generous uniform film that covers all areas. Use light, circular movements. Do not rub hard. Leave to dry, then polish lightly with a dry, soft cloth.
- For best effect, use regularly. Once a month is ideal.

Available in: 1L, 5L

Dispensing Accessories:

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
