

What is Rustex?

RUSTEX is a chemical treatment for removing rust stains from carpets, windows, stainless steel and vinyl floors. It dissolves the iron hydroxide salts that are present in rust and enables the stain to be rinsed free from surfaces. RUSTEX is a strong acid and all safety directions MUST be observed carefully.

Key Benefits

- ✓ Removes rust from a variety of surfaces
- ✓ Makes rusty surfaces shine like new again

For Use On...

RUSTEX can be used safely on all surfaces not harmed by acids including carpets, windows, stainless steel and vinyl floors. NOT SAFE FOR USE on marble, terrazzo, aluminium, copper and brass. Always test product in an inconspicuous area first.

Technical Data

Properties

COLOUR – Transparent colourless liquid
ODOUR – Pungent acid odour
pH = 1
Foam = Non-Foaming

Environmental Care

RUSTEX conforms with all statutory environmental requirements. It is non-flammable. Containers can be recycled.

Health

RUSTEX is corrosive. Contact with skin, eyes, glass MUST BE AVOIDED. Do not mix RUSTEX with other chemicals.

Dangerous Goods Classification

RUSTEX is a Class 8, Subsidiary Class 6.1
Corrosive Liquid.

U.N. No.: 1790	CLASS: 8, 6.1
PACK GROUP: 11	HAZCHEM: 2X

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".
First Certified: 30 April 1996
SAI Certificate No.: QEC7358

Application

- Do not allow Rustex to come into contact with the skin. WEAR RUBBER GLOVES AND EYE PROTECTION.
- **Carpet, Rugs and fabrics:**
Apply Rustex carefully to the stain by wetting a cloth with Rustex and then dabbing the product onto the stain. Allow time for it to dissolve the stain then blot with a towel or tissues. Rinse the treated area thoroughly to remove all traces of the dissolved iron, but do not flood or over-wet the carpet backing.
- **Windows:**
Rustex can be used to dissolve hard water scale and deposits from glass. It should be applied to a cloth first and then this should be rubbed on the scale deposits until they have dissolved. The area should then be fully rinsed with clean water.
- **Stainless steel:**
Brown rusty marks on stainless steel can be removed with Rustex using the same method as for windows above. Rinsing with water must be done after using Rustex. We advise that a test be made on a small
- **Vinyl floors:**
Rust stains on vinyl floors can safely be dissolved with Rustex. It will quickly remove surface rust. However if the rust is very old and has soaked in to the vinyl, it will probably leave a light "shadow" of the stain which will not come out. Please ask your Agar representative for further options to remove this.

Storage

Store this product out of the reach of children.

Available in: 250ml & 500ml bottles

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
